OWLS LOSE FIRST GAME IN STATE CHAMPIONSHIP

The Hondo Owls, defending State
baseball champions, lost in the first
round of play with McKinney Thurs-
day morning, in the opening game of
the third annual State Schoolboy
Baseball Tournament at Dallas, ac-
cording to a telephone message to
Carle's Confectionery Thursday after-
noon from Coach J. G. Barry. The
game went into twelve innings and
ended with the score of 1 to 0 in fa-
vor of McKinney. Clinton Hartung,
outstanding Owl pitcher, went all the
way, allowing only one solid hit and
2 scratch hits, the message revealed.
Hondo got 4 hits, McKinney 3.

The Owls are scheduled to play a
consolation game this morning (Fri-
day).

The Owls, Coach Barry and Assist-
ant Coach Cliff Sadler left here
Wednesday morning for Dallas to de-
fend their crown, and the news of
the loss in the opening round laid

Lou E. Heath Dies Suddenly FUNERAL TODAY

Lou E. Heath died at 1:40 o'clock
Tuesday afternoon of a heart attack
lasting only a few minutes. Coming
in from his farm at the noon hour,
after a morning spent helping some
workmen, he was stricken soon after
partaking of his luncheon. A physi-
cian was summoned at once, but his
efforts were of no avail; death came
with a suddenness that was
appalling.

Funeral arrangements were delay-
ed pending the arrival Wednesday of
the son, Wallace W. Heath, from
New York City, and receipt of a
cablegram from the daughter, Mrs.
C. D. Eddleman, that owing to ad-
verse weather conditions making
the airplane flight from Honolulu in-
advisable, she could not make the
trip. Announcement was made
Thursday morning that the funeral
will be held from the Horgan funeral
home at 3 o'clock P. M. today (Fri-
day) with interment in the Oakwood
cemetery. Following are to be the
active pallbearers: S. A. Jungman,
R. J. Noonan, O. J. Bader, C. J.
Schuchle, Arthur H. Rothe, and J. R.
Duncan.

Honorary pallbearers are: H. E.
Harris, H. V. Pease, A. B. Brucks,
C. J. Bless, Emil Britsch, Clarence
Schweers.
Mr. Heath was born on a farm on
the lower Hondo on November 11,
1872, the son of the late Louis
Heath, Sr., and wife, nee Martha
Rebecca Bailey. His parents moved
to Hondo while he was still a boy
and he grew to manhood here and
has resided here since. On July 3,
1901, he was married to Miss Minnie
Fohn of D'hanis. To their union
two children were born, Wallace W.
and Lorraine Heath. The former has
been a professional architect in New
York City for a number of years and
the latter is the wife of Captain C.
D. Eddleman of the U. S. Army, at
present stationed at Schofield Bar-
acks, Hawaii. Their son, Master
Jack Heath Eddleman, is the one sur-
viving grandchild of the deceased.
Mr. Heath is also survived by four
brothers, Simon E. of Biry, and
George, Jesse and Jim of Natalia,
and one sister, Miss Lela Heath, of
California.

Mr. Heath has been in active pub-
lic life since early manhood. He was
elected County Treasurer in 1902,
succeeding Charles B. Leinweber.
He continued to serve in this capacity
until 1914 when he was elected
Tax Assessor to succeed the late H.
B. Taylor. When the offices of As-
sessor and Collector were combined
in 1934, he was elected to the com-
bined offices and has held the same
ever since. He had been the senior
county official in point of continuous
service since the death some years
ago of the late August Kempf.

Although known to but few, he
had not enjoyed his usual robust
health for some months, and, even
to those who knew this, his sudden
demise was wholly unexpected and
came as a terrible shock. One of the
most popular and best known men of
Medina County, he is sincerely and
sadly mourned by a vast number of
friends.

CELEBRATE FIFTIETH ANNI- VERSARY

Neither time nor space permits a
complete report of the 50th Anniv-
ersary of the founding in 1890 of
the Quhui Gun Club which was cele-
brated at the club grounds Sunday.
Aside from the usual attractions
several entertaining speeches were
made, and the day was agreeably
spent by all, and grand finale was
the dance at night in the spacious
hall that had been gaily decorated
with pennants bearing a group pic-
ture of some of the early members
of the club. This unique decoration
feature was arranged by Chairman
Joe Brucks and his helpers of the
decorations committee.

The special feature was the presen-
tation by President Joe H. Steinle
for the club of a gold medal to the
guest of honor, Henry Poehler, the
only survivor of the charter mem-
bers.

Robert Breiten of Dunlay, partici-
pating in the annual prize shoot that
drew nearly 150 shooters, scored 59
points out of a possible 60 to win
first prize.

Coste, 6 to 1, in a baseball game
played in the afternoon.

Beginning Sunday, May 26th, Rev.
J. C. Watkins of Pearsall will lead
the local Baptist Church in a revival.
Rev. Watkins is a splendid
speaker, and possesses other good
qualities that enable him, with the
help of the Lord and cooperation of
the people, to be an unusually good
leader in revival services. He will
also be leader of the Booster Choir.
We feel that we are fortunate in
having Brother Watkins lead us in
this series of services.

except on Saturday when only the
evening service will be held. The

AN APPEAL TO RED CROSS

St. Louis, Missouri,
May 10, 1940.
Rev. W. S. Highsmith,
Chairman Medina County Chapter
American Red Cross,
Hondo, Texas.

With the invasion of Holland, Bel-
gium and Luxembourg, the war has
entered a phase which will inevitably
at once bring widespread and ap-
palling suffering to helpless men,
women and children.

In order to inaugurate widespread
relief measures the American Red
Cross is at once launching a cam-
paign for a minimum war relief
fund of ten million dollars.

Your chapter total is \$480. Please
at once mobilize the entire leadership
of your chapter and community in
order that your quota may be raised
and exceeded without delay. Letter
of instruction follows.

NORMAN H. DAVIS.

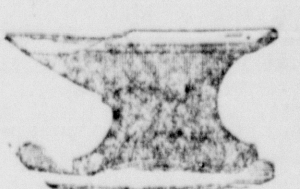

The above telegram is self-explan-
atory.

The American Red Cross has given
and during the past eight or ten
months to refugees in Europe, es-
pecially to the Poles who were scat-
tered all over Europe. Later in the
winter, large sums were given to the
Finns. Then Norway was added to
the list of nations. Now innocent
Holland and Belgium have been in-
vaded. Up to this time, war relief
funds have come from contributions
secured in the annual roll call drive.
These funds have now been exhaust-
ed. In order to raise our quota for
Medina County we will need some
large contributions. Any contributor
may direct his money to some specifi-
cally named nation if he so desires. Funds
cannot be directed to Germany, Russia
and Japan because these three na-
tions have refused proffered assist-
ance.

Lawrence Brucks is Vice-Presi-
dent of the County organization;
Chas. Finger is Treasurer; F. H. Hol-
mig, Secretary; Frank X. Vance, roll
call chairman with the following as-
sistants: W. T. Crow, Hondo; A. H.
Falkenberg, Castroville and LaCoste;
J. P. Ephraim, D'hanis; and Mrs.
Mae Carter, Devine. Assistants have
not been contacted in other commu-
nities yet.

DON'T FORGET THE FIREMEN'S CELEBRATION

Saturday night—tomorrow—is the
time for the big semi-annual celebra-
tion sponsored by the Volun-
teer Fire Company of Hondo. This
affair takes the form of a street
dance and carnival held on North
Front Street in Hondo. Final ar-
rangements are being made to take
care of a record crowd and entertain-
ment features include dancing, keno,
and coffee wheel besides a good old-
time get-together with friends and
neighbors. Funds raised by these
festivities are to be used for legiti-
mate purposes by the Fire Company.
In addition to purchase of new equip-
ment and upkeep of present equip-
ment, the Fire Department has as its
aim for the year 1940 the building of
a modern, up-to-date fire house.
Any cause with the Fire Company be-
hind it is a worthy one and should
receive the generous support of all
who are in any way protected by
their volunteer services. So don't for-
get, tomorrow night is THE NIGHT!!

TOOT YOUR HORN!

By Clayton Rand

The story goes that the publish-
er of Longfellow's "Hiawatha"
was much concerned over the
adverse criticism that followed
the publication of the book.

Rushing to Cambridge, Mass.,
the publisher burst into the
poet's study, and said, "These
atrocious libels must be stop-
ped."

Longfellow said quietly, "By
the way, how is 'Hiawatha' sell-
ing?" And when the publisher
said, "Splendidly," Longfellow
remarked, "Then suppose we let
those people go on advertising
it."

While fortunes have been made
in this country out of soap and
mouth-washes by advertising the
fact you and I smell bad, there
are still doubting Thomases. If
some one else isn't ballhoosing
your product, as they did Long-
fellow's, if you're smart, you'll
do it yourself. Don't be
ashamed to toot your own horn
in print.

WANTS TO SEE ONE-SEVENTY- THREE COMPLETED

Mr. W. M. Neyland, Highway field
man for the Corpus Christi Cham-
ber of Commerce, was here Wednesday
in the interest of Highway No. 173.
Mr. Neyland is highly pleased with
the type of work that has so far been
done on both extensions out of De-
vine and is anxious to see it contin-
ued until the gap between No. 9 be-
low Jourdanton and Highway 90 at
Hondo is completed. When that is
done, travelers will have an almost
airline highway from Hondo straight
to Corpus Christi and deer water.

Mr. Neyland thinks our people are
not fully alive to the tremendous im-
portance this modern highway will be
to Hondo, affording easy access to
deep water with its advantages of
low freight rates. Population groups
itself along travel lanes, and where
population congregates there busi-
ness and industry thrive and prosper.
The modern travel lane is the High-
way and the community group that
hopes to hold its own, to say nothing
of sharing in the new growth, must
be alert to secure the right location
of its roads.

The right location for 173 at Hon-
do is a junction with 90 at a point
where there is room for a T-junction
with the Highway and an over-pass
for the railroad when needed for an
extension northward for a junction
with 83 at or near Leakey.

Like this editor, Mr. Neyland
wants to live to drive over a paved
highway from Corpus Christi, along
9 and 173—via Hondo—and thence
over 173 and 83 to the Canadian
line. Think of the traffic such a
highway would accommodate! And
let's hurry!

FIRE CHIEF GETS GOLD BADGE

The Hondo Volunteer Fire Com-
pany took time off on Thursday
night of last week from its regular
weekly practice and enjoyed a bar-
becue supper at a social gathering at
the Hondo Hotel. A striking fea-
ture of the gathering was that there
was practically 100% attendance of
the members, only one being absent
and he offered as a reason for his
absence the fact that he was on a
diet and didn't want to be tempted
to eat any of the barbecue.

Fire Chief L. A. Mechler, who was
one of the original organizers of the
Company in 1909 and has not missed
a weekly meeting since being made
Chief in 1936, was presented with a
gold badge by the Company, Frank
X. Vance making the presentation
speech and President Robert Koll-
man presenting the badge on

W. H. S. GRADUATES RECEIVE DIPLOMAS.

Despite the inclement weather an auditorium almost filled to capacity saw the graduates of Waynesboro high school receive their diplomas Tuesday evening, and heard a splendid address by Truman S. Lewis, of Mississippi Southern College.

Mr. Lewis used as his subject: "High School Diplomas vs. Education." He is a very fluent and interesting speaker and his subject was presented in a masterful manner. In his address he called attention to the complex world surrounding present-day graduates. He illustrated by speaking of an address before the graduating class of Harvard University sixty years ago, when the speaker at that time warned his hearers of the complex world they were about to enter to seek a livelihood. He compared the complexities of that day with the present and their tremendous increase and likewise an increase in responsibilities and opportunities.

Mr. Arrington, the superintendent, made a few appropriate remarks to the class, and presented the following medals: Elizabeth Walters, valedictorian; Betty Westover, salutatorian; Merritt Reilly, citizenship; Joan Huggins, best all round scholarship in elementary grades; Margaret Forrest, school spirit; John Robert Cooley, school activities; and Bettye Jane Hurt, scholarship in high school.

The following received their diplomas from Mr. Arrington: Bill Freeman, James McRae, James Trigg Howard Reilly, Merritt Reilly, Jane Lois Freeman, McCall Norsworthy Myrna Dorrell, Billy Hurt, Paul Greene, Rayford Greene, Bobbie Sigler, Sarah Norsworthy, Elizabeth Walters, Betty Westover, Boyce McWhorter, Robert Holley and Walter Rankin.—Waynesboro, Miss. paper.

HELP TO KEEP THEM IN SCHOOL

● Of the total taxes paid each year by these Companies and associated Company as citizens of your community, a substantial proportion goes to the support of your schools.

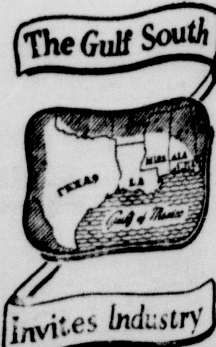

● The Companies' total tax bill for 1939 exceeded \$3,000,000—more than \$8,000 a day! One of the large items in it was school taxes.

● Educators have estimated that in the United States the average cost of putting a child through one year of public school is about \$75.00. If the total taxes paid annually by these Companies were applicable to educational purposes alone, they would provide a year's education for something like 40,000 children every school year!

● Our taxes are important to the proper maintenance and conduct of not only public schools but also all forms of government. They are an obligation of citizenship and contribute to the welfare of communities throughout the territory we serve.

NEW GOODYEAR TIRE ANNOUNCED BY DEALER

Important to the owners of not-so-new automobiles, who may be thinking about new tires to insure themselves trouble-free Memorial Day week-end holiday trips, is announced by M. F. Schweers, local Goodyear dealer, of the company's new All-American tire, priced within the reach of 70 per cent of the majority market of users.

In discussing the tire, Mr. Schweers said: "It's full-size and bears a lifetime guarantee without time or mileage limitations. These are the sizes: 6.00-16, 5.25-17/5.50-17 and 4.75-19/5.00-19, so you can see that it is tailor-made to fit a lot of cars now operating for several years.

"We are mighty pleased to have it, completing the Goodyear line we handle and enabling us to fill anybody's car or truck tire needs, no matter in what price class he wants to buy or what his driving demands may be."

Smart in appearance, the new All-American has the same high-carbon, high-tensile steel wire for beads as is used in all Goodyear passenger car tires. Its body is made with low-stretch Supertwist cord, which has even higher tensile strength than did quality tires of two years ago, Mr. Schweers pointed out. In addition, there is a double cord breaker of high tensile strength to give greater protection against bruises.

Tread compounds are of time-tested reputation, providing long time abrasion resistance, while the tread design is new and known as multiple-rib, assuring long, even wear, easy steering and side slip protection.

At the same time every possible economy has been effected in manufacture without sacrificing essential safety factors, summarized Mr. Schweers, so the tire should prove popular with people who want the product of a recognized manufacturer at lowest possible initial cost.

LOVE ENDS THE DAY

It's very nice to sit and dream
And think the whole thing over,
To stroll along the branch alone
Or walk out through the clover,

Or sail out in a little boat
Till you think you hear him say,
"You are the only one I love"
Thus end your lonely day.

—MRS. ROY MILUM.

Her Privilege!

Shorter?

The student shook his head dolefully in response to an inquiry concerning his pep.

"It isn't what it ought to be," he declared. "It used to be I could walk around the campus every morning. But now, lately, somehow when I'm only half way around, I have to turn and come back."

HUGE MONSTERS ONCE ROAMED THIS REGION

Mute evidence that prehistoric monsters once existed and roamed throughout this region is being uncovered by the research work of Dr. Roland T. Bird, of the Department of Vertebrate Paleontology of the American Museum of Natural History of New York, who has been doing research work in Bandera county the past several weeks. Dr. Bird has inspected the three-toed dinosaur tracks in the Hondo river on the H. J. Mesch ranch near Tarpley, and the sauropod tracks on the Mayan Guest Ranch just across the river from Bandera, but he says the best find he has made thus far is on the ranch of Mrs. Cleora Davenport on the West Verde Creek, thirteen miles south of Bandera, where he now has a crew of about fourteen W. P. A. laborers excavating an embankment some twelve or fifteen feet high, under which he is bringing to light tracks of many of these prehistoric monsters, of both the varnivoire, or three-toed dinosaur, and the sauropod, or aquatic quadruped, which made a large round track like that of an elephant, only much larger. These tracks were made, according to Dr. Bird, during the lower cretaceous period, or some one hundred and twenty million years ago, when this region was pretty well covered with water. In various parts of Bandera and the adjoining counties the three-toed tracks are to be found in the solid rock beds of creeks and rivers. Ages upon ages ago they were impressed there, and silt and soil structure covered them over, but as the millions of years rolled by and the creeks and rivers washed out their channels the age-old tracks were uncovered and exposed to view. Exposure to the elements has caused erosion to partially obliterate many of them, but some are still very plain.

Dr. Bird expressed himself as greatly astonished at the great number of tracks uncovered on the Davenport ranch since he began excavation. He has found the footprints of at least five individual carnivore (three-toed), and the tracks of twelve individual sauropods. The three-toed tracks measure 23 inches in length, and the animal had a stride of five feet four inches. This beast was about fourteen feet in height. The largest sauropod's track measures 30 inches in length, and he had a stride of about nine feet, corresponding right and left. He was a monster fully fifty feet long and about twelve feet high at the hips.

Taking as his lead the exposed tracks he found in West Verde Creek, which led under an embankment, Dr. Bird assembled his crew of laborers and began excavating there, and has cleared away some forty or fifty feet of soil structure. His labor has revealed many more tracks in excellent preservation. With this work only fairly started,

A PAIR OF CHAMPIONS

Wilbur Shaw, America's number one racing driver, is shown at the left receiving a Studebaker Champion coupe from Geo. D. Keller, vice president in charge of sales for Studebaker. Wilbur will make this Champion his official car until race day at Indianapolis, when he hopes to win the Champion sedan that will pace the race and be given to the winner.

and just a mass of tracks uncovered thus far, there is no telling just what will be found as excavation progresses. There must have been a herd of the animals, of both species, in that vicinity at the time the tracks were made, and it is hoped that some skeletal remains will be found by Dr. Bird during his research here. Bones and teeth of the mastodon, as well as tusks which crumbled when brought to the surface, have been found throughout this section during recent years. In Frontier Times Museum in Bandera several of these things can be seen, one of which is a portion of a mastodon's tooth with the enamel intact, which was found on O. L. Adams' ranch at Tuff; another tooth fragment was found by B. G. Wiemers on West Verde Creek.

The three-toed tracks of the carnivore, or flesh-eating dinosaur, are found in the Sabinal river just below Utopia, in the Hondo river, just below Tarpley; in West Verde Creek at the Davenport ranch, and also on the ranches of Earl Parsons and Ben Gerdes on West Verde; a few are reported to be in Bandera Creek below Bandera; some are reported to have been found in the bed of Turtle Creek in Kerr county, not far from where State Highway 16 crosses that creek. The only sauropod tracks thus far found in this section are on the Medina river at the Mayan Guest Ranch near Bandera, and those which Dr. Bird is uncovering on the Davenport ranch on West Verde Creek.

So it is within the range of possibility that before Dr. Bird has completed his labors here the remains of some of these and other prehistoric animals may be found. Fossilized remains are being found in other sec-

tions of the United States, where research work has been done by paleontologists who know what they are looking for. Now that Bandera county has come under the notice of the American Museum of Natural History, we confidently look forward to some interesting discoveries in the field of research.

Dr. Bird has been engaged in this line of work in different sections of the United States, and talks most interestingly of the experiences he has had, and the discoveries he has made where he has labored.—The Medina Light.

LIFE OF A TOWN

"No business man in any town
should allow a newspaper published
in his town to go without his name
and business being mentioned some-
where in its columns. The man who
does not advertise his business does
an injustice to himself and the town.
The life of a town depends upon the
live, wide-awake and liberal adver-
tising business man."—American

QUIHI NOTES

He maketh me to lie down in green
pastures. Ps. 23:2. The "He" again
goes back to the "Shepherd". He
is supposed to know the most suit-
able pasturage for his sheep. Does
it mean that the Lord concerns Him-
self with such small matters as our
daily nutrition, our diet? Our or-
gans and the whole process of nutri-
tion certainly is His invention, so
that our foodstuffs, meat, vegetables,
bread, etc., automatically are trans-
formed into tissue, bones, nails, hair,
muscles, nerves and so on, thus pro-
ducing growth and energy and all
the sustaining powers. Our nerves
of taste and smell, our appetites and
cravings, He has arranged and or-
dered to help us detect what is want-
ed in our organism, making for a
well-balanced meal if those pointers
are heeded. And with utmost gen-
erosity He has placed a most marvel-
ous variety of foodstuffs at our beck
and call in fields and air and water.
By thousands of ever active minds
He has produced our mental pabulum
in the form of papers, books, scien-
tific investigations, industrial pur-
suits, works of art, etc. to feed our
mind with thoughts, ideas, ideals
and aims and, withal, firing and
rousing our imagination, ambition
and enthusiasm for artistic or prac-
tical benefits. Green pastures all,
indeed, and more so, when we con-
template those central and abiding
values in spiritual food. His eternal
word of spirit and life, emanating
from Him through prophets and
apostles in times past, under various
conditions and for a variety of peo-
ple, but meant for the whole human
race as the only trustworthy panacea
to cure their ills and restore
them to normalcy in individual and
international issues. They challenge
comparison. They defy the ravages
of age and changing notions and
substitutes. The literary green pas-
tures of bygone centuries have with-
ered and decayed. What little re-
mains has but the curious value of
antique relics. The coming centuries
will roll over the present output and
plow it under. Even "heaven and
earth shall pass away, but my word
shall not pass away." That's the
word that feeds and fortifies the
soul, lights life's pathway, purifies
thoughts and motives, strengthens in
times of trials, distress and agony,
renewes of God's forgiving grace in
Christ and reassures us of His pres-
ence day by day. These green pas-
tures shall never wither, thanks to
our Good Shepherd.

Death has come into the close re-
lationship of Mr. and Mrs. Arthur
Grell, and into the home of Mrs.
Geo. Heyen, taking away her son,
Henry Heyen. We offer our sym-
pathy to the bereaved.

Little Mary Bell Gerdes has im-
proved nicely, so that she could be
released from the hospital with fair
prospects for full recovery. We are
glad with the glad. But another pa-
tient from this community, in the
meanwhile, has entered the hospital.
Mr. George Hartmann. An urgent
and critical operation has been per-
formed and, to all appearances, his
condition has vitally improved.

And here is the proposed list of
contributors for the June program of
the Luther League: Select readings,
Mrs. Arnold Lindeburg, Mrs. Albert
Reus, Mrs. Rolf Saathoff; vocal se-
lections, Mr. Alfred Boehle, Mr. Os-
car Grell, Mrs. Herbert Brucks; in-
strumental selection, Mrs. Oscar
Haby. The male chorus and the
three choir selections are standing
numbers and hardly ever fail. The
lecture again covers a vital and tim-
ely subject. Mother's Day received
full recognition in the last program.
We hope that all contributors are
able to serve and invite the general
public for these occasions.

Announcements for May 19: Sun-
day School and Bible class at 9:00;
German service at 10:00 A. M.
Please observe the new time sched-
ule. No evening service. And we
again invite you cordially.

LIBRARY WORK APPROVED
Mrs. Ruby T. Miller, Field Super-

The parents and pupils are really

be used.
We are so glad our library will be

LOCAL CAMP TO CELEBRATE
50th W. O. W. BIRTHDAY.

The local Camp of Woodmen of

men's 50th anniversary on June 6.
Nearly all of the Society's 8,000

ciety. One of the board's sessions will
be held in the same room in which
the fathers of Woodcraft first as-

National headquarters will con-

elaborate floats. Woodmen Circle is
participating in this phase of the cele-
bration.

A program will be held in the

FIRST BALES OF SURPLUS COT-
TON RECEIVED IN HONDO

Twelve bales of surplus cotton
were received by Mr. R. D. Burden,
Triple A Secretary, in Hondo Wed-
nesday at noon. A bale of mattress
ticking is expected within the next
few days. The cotton and ticking are
being furnished through the Surplus
Commodity Corporation, and is to be
used in making mattresses over Me-
dina County under the directions of
Miss Nell L. Foley, county home
demonstration agent. Miss Foley
advises us that a mattress making
center will be opened at Devine the
latter part of next week where nine
of the twelve bales of cotton are to
be shipped. The Devine Chamber of
Commerce has agreed to sponsor the
mattress making program in the De-
vine-Natalia area. Miss Foley said,
and has arranged for transportation,
storage and a place in which to pro-
cess the cotton and ticking into mat-
tresses. Applicants for surplus cot-
ton and ticking will come to this center
and make their mattresses. Other
centers to be opened later will be
Hondo, Yancey and Quibi, Miss Foley
said.

An order for twelve more bales of
cotton, and one bale of ticking was
sent to College Station on Thursday
of this week, and a shipment is ex-
pected within the next fifteen days.

Farmers should file applications to
participate in this program by June
20, 1940, Miss Foley said. The appli-
cations may be obtained from the
county agent's or home demonstra-
tion agent's office.

um was the scene of the Baccalaure-
ate Service for the graduating class
of 1940, on Sunday, May 12, at 5
P. M. Potted ferns and bouquets of
flowers were on the stage, where
blue and white, class colors, predom-
inated in the decorations.

Reverend Eugene Zuber, pastor of
Holy Cross Catholic Church, deliver-
ed the sermon and gave the invoca-
tion and benediction.

The members of the class, solemn
in their blue mortar-board caps and
gowns, entered singly while a pro-
fessional march was played on the
piano. Musical numbers included two
anthems sung in four parts by a
special choir, Sullivan-Hodges
"Father, Keep Us in Thy Care" and
Haydn's "Come, My Soul," and a violin
solo, Borowski's "Adoration," by
Mr. Herman Couser.

Father Zuber's sermon was an elo-
quent discourse which he opened
with a few timely remarks regarding
the significance of the day—Pente-
cost and Mother's Day. Having read
the Gospel for Pentecost Sunday, he
opened his sermon formally with a
text from the Gospel according to
St. John, VIII, 12: "I am the Light
of the world; he that followeth Me,
walketh not in darkness, but shall
have the light of life."

All authority, Father Zuber ex-
plained, comes from God, and as
long as those in authority as well as
these under their jurisdiction ac-
knowledge and live up to this truth,
all people will enjoy that personal
liberty for which every human being
has a God-given desire. He urged
the graduates to make use of their
education, which is the gift of a free
people, in such a way as to preserve
for future generations the liberty
Americans have always enjoyed.

The Benediction and Recessional
were the concluding parts of the
service.

Members of the Senior Class are
Jonelle Nester, Gertrude Weyand,
Calvin Bendele, Charles Saathoff,
George Hitzfeld and Homer Nester.

Scores in State Tests Improved

Results of the Nelson High English Tests were very pleasing to those concerned. For English II the average is 157, but the student's average was 158 which is an improvement since the first part of the year. English IV class medium was 182. The average for high schools all over the state is 169. There were four scores above 204. Only 1% of students taking tests throughout the country make 204 or better. The students who made those very remarkable scores are Mary Ann Noonan, Judy Lacy, Arthur Lacy and I. V. Garrison.

The English III class average is 162. Our students made an average of 174.

The Nelson English Tests are given in two parts, A and B. At the first part of the year part A was given and part B was given this last half. The scores show a marked improvement over the A part.

Homemaking Girls Are Honored

The Hondo Hotel was the scene of a successful dance Saturday night when the F. F. A. boys entertained the Homemaking girls with an informal dance.

The hotel ballroom was attractively decorated with pink and green crepe paper streamers and various colored spring flowers. The patio was decorated in the same color scheme. Music for the dance was provided by the Leinweber orchestra from nine until twelve.

This is an annual courtesy extended to the Homemaking girls in return for the help they give the F. F. A. boys at their banquet.

Homemaking Club Holds Meeting

A last meeting of the H. E. Club was held in the auditorium on Tuesday afternoon, May 7th. Plans for the Mexican supper were discussed.

Zelda Schweers introduced the guest speaker of the day, Principal M. L. MacDowell. The very interesting topic, "How Homemaking Applies to the Community", was discussed by Mr. MacDowell. The main points of the story were how homemaking contributes to physical aspects of a community in the way of cleanliness, sanitation, and social welfare. Homemaking creates a foundation upon which homes are built. And from a Chinese proverb comes this statement: "One hundred men can make an encampment, but it takes a woman to make a home". After this Mildred Van Fleet also gave a talk.

Delicious refreshments of iced tea and vanilla wafers were served to all those present.

DON'T CHERISH RESENTMENT

Have a care of resentment, or taking things amiss... but be apter to remit than to resent... For as softness often conquers where rough opposition fortifies, so resentment, seldom having any bounds, makes many times greater fault than it finds: for some people have out-resented their wrong so far, that they made themselves faultier by it; by which they cancel the debt through a boundless passion... and become debtor to the offender.—William Penn.

OWLS DEFEATED BY SAN MARCOS ACADEMY

Saturday, May 11, the Owls traveled to San Marcos where they were defeated by the Academy team with a score of 2-0. The Owls seemed to be swinging at the high ones which would have walked most of them. It is a good thing the Owls got this game out of their system before they left for Dallas.

The Owls received only one hit during the game and this was made by Holloway. Culpepper got two singles for the Academy and Turner knocked a home run. Godchamp got a single.

According to Coach Barry, this was the first team that he had ever coached that got only one hit in a game.

Hartung pitched the whole game for the Owls, allowing only four hits.

The following is a box score of the game:

OWLS TO PUT UP FIGHT FOR STATE TITLE

The Hondo Owls baseball team will leave for the Dallas tournament Wednesday, April 15th. The team is in very good shape and will have a fine chance to bring home the State Championship again this year. The team will probably leave early Wednesday and then stop for a short workout on the Baylor University field in Waco before going on into Dallas. A number of rooters will accompany the team to the tournament this year to help the boys bring home the "bacon".

The boys making the trip are: Clinton Hartung, Nonnie Jennings, Elmer Leinweber, Charles Finger, Harry Kollman, Wesley Moehring, Leon Mangold, James Weynand, Joe Embrey, G. H. Finger, Raul Dominguez, Stanley Holmig, Leslie Earl Holloway, and Coaches J. G. Barry and C. D. Sadler.

Here's wishing the boys all the luck and success possible in their defense of the State title.

REVIEW OF 1939-40

Well, it won't be long now. The commencement exercises of dear old Hondo High are slated for Tuesday night, April 21st, on the football field at 8 P. M.

The commencement exercises always seem to be the saddest part of the whole year because all the swell Seniors, whom we have known all through our school life, will be gone when we come back next year. These Seniors will be gone, that is true, but they will be far from forgotten. They will be remembered by the Freshmen as the class who initiated them every week of the year, and by the Juniors as the class who gave them a swell picnic at ConCan.

We will remember the Seniors who played football and who did such a swell job in helping to bring the District Championship back to our school. We'll be out there fighting to keep it next year, too.

Next year we Juniors of The Owl staff will be graduating, that is we hope we will be graduating, if we pass a few "simple" tests that must be passed before you are entitled to the sheet of paper which is known as a diploma.

To the Senior Class of 1940 the students of Hondo High extend their heartiest congratulations and in your later life all the success and happiness that you are entitled to. Good Luck to all of you!

Products From Every State Used In Making Of Beer, Survey Shows

PRODUCTS, employment and public revenue in every state in the Union shared in the brewing industry's contribution to business and government last year, according to the 1940 issue of the economic survey, "Beer and Brewing in America," edited by Standard Statistics Co., Inc.

Rapid expansion of the industry's program of alignment with the public interest to promote moderation in drinking and to insure high standards of beer retailing was another feature of the year's developments.

"In the seven years since beer's re-legalization, the re-born industry has resumed its important place in the economic structure of the nation," the survey states.

"It is an industry rooted in agriculture, through the use of brewers' grains. From every State in the Union, it draws materials and ingredients for some 600 breweries, large and small. It returns its finished product again to every State through a vast network of thousands of wholesalers and hundreds of thousands of retailers."

Another impediment to marriage nowadays is the increasing difficulty in supporting the government and a wife on one income.—Wall Street Journal.

"From the local outlet, a large portion of the money spent for beer flows back into local business channels through the retailer's purchase of innumerable commodities in his own community."

"Outstanding indices of the industry's far-reaching economic significance are visible in:—

"1. Wide-spread employment and large-scale utilization of farm products."

"2. Stimulation of the productive activity of scores of the nation's major industries which provide needed equipment and materials."

"3. Heavy contributions to Federal, State and local revenues."

Originally prepared by the late Warren Milton Persons, statistician, author and professor of economics at Harvard University, the material in "Beer and Brewing in America" has been thoroughly edited and brought up to date for the 1940 edition. It is published by the United Brewers Industrial Foundation.

WASHINGTON
SNAPSHOTS . . .
by
James Preston
The opinions here expressed are
Preston's own and not neces-
sarily those of this paper.—M. E.
Facts which don't make the head-
lines these days disclose an inter-
esting situation, for they show that
Washington is outdoing the man on
the flying trapeze—with the greatest
ease it goes two ways at once.
Facts here still talk about the
country being a "democracy" in
the majority rules. But at the
same time, many of them do all they
can to keep representatives of the
people from carrying out the will of
the majority of the citizens.
Typical is the story behind the
Hunt-Lefan bill, which would
cancel relief to thousands of citizens
on the rule of bureaucrats. The
people want that bill. The House
passed it by a three-to-one vote. A
majority of the delegations from 35
states were for it, while only three
delegations opposed it.
Yet every possible effort is being
made to keep the bill from becoming
—WSS—
Another good sample is the Wag-
ner Act. All public opinion polls have
shown for a year, and continue to
show, that a great majority of the
people want that law amended. Yet
again, the powers that be seek
to thwart the will of the majority
by a minority—the CIO—likes
law "as is."
There is a growing public belief
which was summarized by a National
Business Clubber who remarked: "The
Wagner Act gives the same protec-
tion to racketeers that the prohibi-
tion amendment did to bootleggers."
Still those in control want to pre-
vent this protection.
—WSS—
There is little doubt, too, but that
majority of the people would like
to see government expenses cut be-
fore their taxes go sky-high. Yet
the control Congressional man-
agers are doing little about reduc-
ing expenditures. The debt, which
each day must be paid, goes higher
and higher.
This remarkable calculation was
made only recently by one House
member who is worrying about the
future: "We would have to take 85
percent of the net income away
from all people who made income tax
payments to pay the running expense
of government this year."
—WSS—
Here is still another sample of
thwarting the will of the majority.
Everybody agrees that despite
laudable objective of putting a
stop under wages, the Wage-Hour
law does lots of unfair things such
as requiring in some cases that men
make as much as \$10,000 a year
paid time and a half for overtime.
Businessmen were summoned to
Washington to tell about such cases.
They hoped to get relief in unfair
practices. Yet when they testified in
the hearings, they were cross-
examined by labor union lawyers at
length—and without any advance
notice that they would be cross-
examined, or that they could cross-
examine other witnesses.
All the way through, the current
agency is to tell the people that
they say goes, and then when
they drop their guard to sock 'em
in a rabbit punch.
Crack by a National Press Club-
ber: "We still have a government of
checks and balances—checks, to
everybody and deficit balances."
And the comment of one Southern
leader: "Two political types that
rule us are the one on the fence
and the other who talks through the
pulling rabbits out of."
—WSS—
SPENDING BLITZKRIEG.
The United States is at peace.
Great Britain is at war.
In the coming fiscal year, Great
Britain's local and national govern-
ment will spend 10 billion dollars.
During the same period, government
of the United States will cost well over 19
billion dollars!

Nation at war for its life—10 bil-
lion dollars of government spending!
Nation at peace—19 billions!
Of course our population is three
times as large as that of Great Brit-
ain. Allowance can be made for that,
and the figures still remain startling
in their implications, for it well to
remember that the British bill—still
much smaller than ours—is two and
a half times what it was in pre-war
days.
Can it be that government in this
country has declared war, too—war
on economy and on the poor, de-
fenseless taxpayer?
DALLAS NEWS SPONSORS TOUR
OF TEXAS
Dallas, Texas, May 11.—Doris
Ward, an 8th grade pupil of the Ed-
gar Allen Poe Junior High School at
San Antonio, was chosen Saturday
as the winner from District Eighteen
of the Know Texas Contest, sponsored
by The Dallas Morning News and the
Texas Almanac. Her address is
822 Peck.
The award will be a 2,000 mile all-
expense educational tour of Texas
that will take the children from Dal-
las to sea level, to 7,000 feet at Mc-
Donald Observatory, from the piney
woods to the semi-arid regions, and
into Mexico.
Winners of the school-on-wheels
tour are 44 school children from
twenty-three of the twenty-four su-
pervisory districts, there being no
contest winners in District 23. Dis-
trict 21 and 19 have only one win-
ner each as the awards were divided
between salary aid and non-salary
aid schools and Guide Booklets were
entered in only one classification.
The young authorities on Texas,
as evidenced by their use of the Tex-
as Almanac in answering questions
about Texas, will gather in Dallas
on Saturday, June 8. A dinner will
be given by The News and the Al-
manac that night for the contest
winners and parents who accompany
them to Dallas.
On June 9 the children will visit
places of interest in Dallas.
The next day the boys and girls
will start their visual education tour
in air-conditioned Bowen Motor
Coaches. The first day's trip will be
from Dallas to Fort Worth and to
Wichita Falls for the night. The sec-
ond day's trip will end in Lubbock,
the tour going through Electra, Ver-
non, Crowell, Paducah, Matador,
Dickens and Crosbyton. On the
third day the children will go into
Davis Mountains through Fort Stock-
ton, visit Fort Davis and Alpine.
While in the mountains the young
travelers will need light coats. A
few days later they will be in bath-
ing suits at Galveston, having visited
enroute the Vice-President's home in
Uvalde, historic sites at San Antonio,
Austin, Washington-on-the Brazos
and at Houston.
The eastern part of the tour will
be through Huntsville, the paper mill

"NOBODY'S BUSINESS."
By
Julian Capers, Jr.
The opinions here expressed are
the author's own and not neces-
sarily those of this paper.—M. E.
AUSTIN, May 11, 1940.—The
competition of an European war that
threatens at long last to flame into
"total warfare", with involvement of
all Europe, and the apathy of an
electorate, continued to smother the
1940 political show in Texas.
Garner forces, taking advantage
of a "peace agreement" worked out
in Washington by Congressman Sam
Rayburn and Lyndon Johnson, met
little opposition from Roosevelt third
termers in the Texas precinct and
county conventions, and will control
the Waco State convention. Roose-
velt advocates apparently are satis-
fied to permit the convention to en-
dorse the Roosevelt-Garner adminis-
tration, frown on a "stop Roosevelt"
movement, and give the sage of
Uvalde a complimentary favorite son
vote at the national convention.
Otherwise, the Garner movement
seems to be hopelessly deflated. In-
dications are now that Roosevelt, un-
less he forbids it, will be drafted by
the votes of states ahead of Texas
on the roll-call, so the Garner vote
will be nothing more than a compli-
ment to a distinguished Texan.
Out of the campaigning, however,
likely will come the election of My-
ron G. Blalock, Garner leader, as
Democratic national committeeman
from Texas, and the state could make
no better choice. Blalock, able, ex-
perienced, one of Texas' best speak-
ers, and a man who retains the con-
fidence both of the people at large
and of the group interests, will re-
flect honor and prestige upon the
Democracy of Texas as its represen-
tative on the national committee.
Big Legislative Turnover
Gov. W. Lee O'Daniel asked the
folks, in his opening address, to give
him a legislature that would knuckle
under to his fantastic financial plans
for a \$60,000,000 sales tax program
for Texas. He may or may not get
it. But it is evident at this stage
that there will be a lot of new faces
in the next Legislature, with nearly
one third of the present House mem-
bership voluntarily retiring, and 360
candidates for the 150 places, with
many others expected to get in as
the political show warms up, during
the next three weeks. Seven women
candidates already have announced.
Sixteen Senators' terms expire, and
there will be new faces in some of
these places. It is certain, with John
Reddick, of Lufkin, G. H. Nelson, of
Tahoka, and probably Clint Small of
Amarillo not asking re-election. Will
Pace, the Tyler veteran and mentor
of the powerful East Texas bloc in
the Senate has not yet announced,
but his friends say he will. Three
other candidates seek his place. Two
hold-over Senators, Olan Van Zandt
of Tioga, and L. J. Sulak of La-
grange, seek other offices. Van
Zandt to the Railroad Commission
and Sulak for Congressman.
Rail Race Is Joke
With 20 candidates either an-
nounced or planning to get in, the
competition for the Railroad Com-
mission place of retiring Lon Smith
has become a political farce. Olin
Culbertson, William McDonald, former
Land Commissioner, Olan Van
Zandt, and possibly Ross Hardin are
regarded as possibilities for the run-
off, at this stage, by most observers
here. The public has shown little in-
terest up to date, despite a barrage
of radio oratory in this race.
Mann Sues Motor Sales Corporation
Attorney General Gerald Mann,
charging that officials of the corpora-
tion had refused to permit an as-
sistant of his to inspect its books and
records in Detroit, as provided by
Texas law, has brought suit to oust
the General Motors Sales Corpora-
tion from doing business in Texas.
It is a sales subsidiary of the huge

auto manufacturing corporation.
Mann has sought, he said, to deter-
mine whether the company was vio-
lating the anti-trust laws in Texas,
and Texas' law provides for forfei-
ture of the permit to do business in
this state, upon refusal to permit in-
spection of its records, under such
circumstances.
Morse to Vacate
Emmett Morse, veteran of seven
terms in the House from Harris
County, and present Speaker, will
seek re-election to the House, he an-
nounced, but will not seek a second
term as Speaker. That leaves Homer
Leonard, of McAllen, a contender
last time who withdrew to support
Morse, as a likely top candidate for
Speaker of the next House.

One of the provinces of a newspaper is to afford any one desiring to do so opportunity to discuss through its columns matters of public import and give voice to their ideas and opinions. The editor's province is to act as umpire in any such discussion and see that the game is played fairly. In that sphere, it is only necessary that the editor knows the authorship and not necessary that the writer's name be printed. Any signature, however fictitious, is notice to those of understanding that the article is a contribution and not the work of the editor. Articles appearing in this department are often sent direct to the paper and our local reporter knows nothing about them until after they are printed. So if there is any blame, place it where it belongs.

STATE SUPERVISOR INSPECTS CASTROVILLE PUBLIC SCHOOL

Castroville, Texas, May 13.—Mrs. P. E. Dickison, State supervisor of public education, spent all day Monday inspecting the new Castroville Public School. The inspection of teachers' credentials, children's tests, notebooks and projects was also made.

According to Mrs. Dickison, the material submitted by the teacher on part of the children was very satisfactory. The official report will come out soon from the State office in Austin.

CASTROVILLE PRIMARY TEACHER WEDS

Castroville, May 13.—Miss Wilma Kate Henson, Castroville Public School's primary teacher, surprised her friends here by announcing her marriage in San Antonio at Calvary Baptist Church Sunday to Dwight E. Tripp of San Antonio. Mrs. Tripp informs her friends she will finish her school work at Castroville this spring.

CASTROVILLE VOTES AGAINST MAINTENANCE SCHOOL TAX

Castroville, Texas, May 13.—The people of Castroville definitely tucked another plainly won decision under their belts by beating the flexible 50 cent school maintenance tax. The final tally of votes was 92 "for" and 130 "against". This was about the eighth similar tax that has been voted down in the last few years.

CASTROVILLE COMMENTS

Misrepresentation of Facts. Last week "A Castroville Taxpayer" proceeded to get the editor of this little column "told" in regard to the other side of the flexible 50 cent tax that had been generalized and explained. We must say it is the right of everyone to have freedom of speech, but when gross misrepresentation of facts are practiced, there ought to be a clamp put on such a mouse trap. Time and space don't permit us to deal with all the misconstrued idiosyncrasies delved into by this party. But, the 50 cent tax in question was to be a flexible one. A person is utterly wrong when he could read the word "flexible" and not understand, as we tried to reason, that that means it is anything but a straight tax. The word "flexible" was overlooked somehow by this party who should be wise enough to interpret its meaning as adjustable, malleable, or to suit the needs of the school. The topic this party referred to in regard to the spending by School Board some \$2000 more than was voted on was a case of necessity. We wonder what a normal minded

community would have thought of a school board who sat back, and, due to the lacking of \$2000, not gone on and installed the roof and the windows to the building, because they required \$2000 more. That would have been absurd. They had to go on through with it, because of an emergency. It was the only feasible thing to do.

Anyway, that tax election is lost and the creditors are not any better off—which is a shame.

Black Bass. Many Castrovillians who have lived here along the Medina a long time have observed how fishing luck has fallen off in the last few years. Is it on account of so many line-and-rod fishermen that come out on Sundays? Hardly. They don't catch enough fish compared with what is propagated to make a drop in the bucket.

According to most people along this beautiful old river the introduction of black bass into our stream from the Federal fish hatcheries has been the underlying cause. It is said they prey on other fish—even their own kind. Perch, crappie, baby catfish, and other fish become scarce a few years after black bass come to live among them.

Standardized Tests. All the children in the grade school department are busy taking the county standardized tests. The tests tend to make the child better able to pass higher work in high school.
